

Name:
J#:
Date: 2017 June 01

Exercise Type (Cost):

In-Class (1AP)

Standard: This student is able to... C01: LogExpDerInt. Find derivatives and integrals involving logarithmic and exponential functions. <div style="text-align: right;">★ reattempt due on:</div>	Mark: <hr style="border-top: 1px dashed black;"/>
--	--

a) Find $\frac{d}{dx}[ex + \ln(2x)]$.

b) Find $\int (\frac{4}{x} - 3e^x) dx$.
